#### Discover Detection

Step in to shoes of a Detective! Uncover the science in evidence gathering and analysis – collect and analyse evidence and learn the skills of a crime scene lab technician! Use your very own 'Fingerprint Finder' to place and identify UV prints!

#### Junior Detectives

Are detectives really scientists in disguise? Discover what it takes to be a detective in this hands-on look at detective science! Using your powers of investigation and 'Inspectikit' you will have all you need to get started on your detective adventure!

#### Spy Academy

I spy! From edible messages to decoding clues, you will see what skills spies have in this hands-on journey into the world of espionage! Make and take home your own 'Secret Code Breaker' and communicate stealthily at home, like a real spy!

#### Agent Undercover

Calling all agents! Calling all agents! Become a successful spy by learning how to operate undercover! Build your own 'Undercover Observer' and step into the shoes of a spy in action! See without being seen!

#### Sleuths on the Scene

Suspects, schematics and sleuths... oh my! Connect the dots using science and solve a crime in this hands-on investigation! Carry on your sleuthing at home using your 'Scene Solver' and reconstruct the scene of a crime with family and friends!

#### Whodunit?

Great question! Let's find out! Use your observational skills and evidence-handling techniques to catch the baddie! Use your 'Whodunit Kit' to practise your skills of recall and observation. Use character descriptions to reconstruct the face of the suspect!

#### Funky Forensics

CSI here we come! Evidence collection and puzzle-making will help you understand why forensic scientists like to understand the complete picture! Use your 'Case Stamper' to probe the science of tracking – stamp out a scenario on a case card according to the evidence!

#### Crime Lab

Got clues? Analyse clues and get hot on the trail of the culprit with the Crime Lab program. Use your 'Spynoculars' safely observe clues from afar. These build-your-own binoculars are used to test the limits of magnified observation!

**6 Topics will be covered subject to kit availability  
Take Homes given in 5 of 6 lesson**
